SUMMARY

With a Bachelor's degree in Computer Applications, I have a strong background in information technology and programming. I am passionate about frontend development, and I constantly learn new skills and technologies to enhance my expertise and creativity. I am looking for an opportunity to join a dynamic and innovative team, where I can contribute to impactful and meaningful projects, and grow as a web developer.

EDUCATION

Shekhawati Institute, Sikar - Bachelor of Computer Applications

July 2017 - August 2020

PROJECTS

[Omnifood - Food Subscription](#)

Omnifood is a responsive website for a food subscription based startup that works on every single possible device.

[Forkify: Recipe Application](#)

Forkify is a responsive recipe application where users can search for over a million recipes by ingredient or recipe names, bookmark recipes, and upload or delete their own recipes.

[React Quiz](#)

A responsive React Quiz application with four difficulties and options to shuffle the questions and/or options on replays. It has 15 unique questions on easy, medium and hard difficulties and 5 of each on mixed.

[Fast React Pizza Co.](#)

A simple pizza application built with react, redux and react-router, and tailwind css where users can browse the menu, add items or update quantity to cart, and place orders. Users can also search for previous order IDs.

EXPERIENCE

While I don't yet have any professional work experience, I do have a year of experience creating personal projects. I have been teaching students both English and mathematics for almost 2 and a half years now and at the same time, I've been taking programming courses and creating personal Projects to solidify my skills. I'm looking forward to putting these skills to work with you.

SKILLS

HTML & CSS
JavaScript
React
TailwindCSS
Redux
React Router
React Query
Git
English Fluency
Communications
Critical Thinking
Dependable and
Responsible

INTERESTS

Analysing other people's code

Reading documentation
